

Field Trips

unfortunately we are unable to project when businesses may open over the summer, so it is difficult to put out a set Field Trip schedule.

We do know that **Every Tuesday and Friday**, we will be swimming at Miss Beth's pool (weather permitting).

We have a hired Lifeguard who will offer any child to take the "Deep End Test" in order for them to cross the shallow end rope. Teachers are staggered in the water as well as around the pool to keep an eye on the children.

For now, we will be visiting parks, taking hikes and going to beaches. As things start to open, we can fill in with things like Berry picking, playgrounds, the zoo, spray parks, etc.

We are looking forward to spending the summer with your kids!
